NOTES TO THE FINANCIAL STATEMENTS
QUARTER I, 2025

I - GENERAL INFORMATION

Types of capital ownership

Southern Gas Trading Joint Stock Company (hereinafter referred to as "the Company") operates according to the Business Registration Certificate number 0305097236 dated May 15, 2015, issued by the Department of Planning and Investment of Ho Chi Minh City, with a charter capital of VND 500,000,000,000.

This Business Registration Certificate replaces the Business Registration Certificate number 4103007397 dated July 25, 2007, and its amendments. The Company's shares are listed on the Hanoi Stock Exchange.

The Company's headquarters is located on the 4th floor, PetroVietnam Building, No. 1 - 5 Le Duan, Ben Nghe Ward, District 1, Ho Chi Minh City, Vietnam. The Company has a 100% owned subsidiary, Vietnam Liquefied Gas Co., Ltd. - VT Gas, which began operations on April 1, 2020. In addition, the Company has branches in Dong Nai, Binh Khe, the Western region, Central region, and South Central region.

Principal activities

The main activities of the Company are the export and import of liquefied petroleum gas (excluding operations in Ho Chi Minh City); buying and selling liquefied petroleum gas, gas products, materials, equipment, and transportation, storage, bottling equipment, and buying and selling liquefied petroleum gas (excluding the purchase and sale of liquefied petroleum gas at the parent company's headquarters); construction and investment consulting for liquefied gas projects, industrial gas projects; technology transfer, exploitation, business, and maintenance of liquefied gas-related projects; transportation of liquefied gas and cargo by container; services related to liquefied gas and gas products in the industrial, civil, and transportation sectors; wholesale and retail of compressed natural gas; wholesale of fertilizers; real estate business; cargo handling services; production, filling, and distribution of liquefied petroleum gas and compressed natural gas; manufacturing of metal containers for compressed gas, liquefied petroleum gas, and natural gas; repairing metal containers, storage tanks, and containers; painting, maintaining, and repairing storage tanks, reservoirs, pipelines, and storage facilities for various types of liquefied petroleum gas; wholesale of machinery, equipment, and machine parts; construction and completion of civil engineering works.

Normal operating cycle

The Company's normal production and business cycle is carried out within a period of no more than 12 months.

II - BASIS OF PREPARATION OF SEPARATE FINANCIAL STATEMENTS AND FISCAL YEAR

Basis of preparation of separate financial statements

The accompanying separate financial statements are presented in Vietnamese Dong (VND), based on the historical cost principle and in accordance with the accounting standards, the accounting regime for enterprises in Vietnam, and relevant legal regulations related to the preparation and presentation of financial statements.

Fiscal year

The Company's fiscal year starts on January 1 and ends on December 31. The separate financial statements for Quarter I. 2025 of the Company are prepared for the period from 01 January 2025 to 31 March 2025

III - APPILCATION OF NEW ACCOUNTING GUIDANCE

New guidance on the enterprise accounting system

On December 22, 2014, the Ministry of Finance issued Circular No. 200/2014/TT-BTC ("Circular 200") guiding the accounting system for enterprises. This circular became effective for fiscal years beginning on or after January 1, 2015. Circular 200 replaced the regulations on the enterprise accounting system issued under Decision No. 15/2006/QĐ-BTC dated March 20, 2006, and Circular No. 244/2009/TT-BTC dated December 31, 2009, both issued by the Ministry of Finance. The Board of Directors has applied Circular 200 in the preparation and presentation of the financial statements for the quarters and fiscal year 2024.

IV - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1 - Accounting estimates

The preparation of separate financial statements complies with accounting standards, the accounting system for enterprises in Vietnam, and relevant legal regulations related to the preparation and presentation of financial statements. It requires the Board of Directors to make estimates and assumptions that affect the reported figures for liabilities, assets, and the presentation of contingent liabilities and assets at the date of the separate financial statements, as well as the reported revenue and expenses during the operating period. Although accounting estimates are made with the full understanding of the Board of Directors, actual results may differ from the estimates and assumptions made.

2 - Cash

Cash includes cash on hand, bank deposits, and cash in transit.

3 - Account receivable

Receivables are amounts that can be recovered from customers or other entities. Receivables are presented at their book value, less provisions for doubtful debts. Provision for doubtful debts is made for receivables that are overdue for six months or more, or for receivables where the debtor is unlikely to pay due to liquidation, bankruptcy, or similar difficulties.

4 - Inventory

Inventories are determined based on the lower of cost and net realizable value. The cost of inventories includes direct material costs, direct labor costs, and overhead costs, if any, incurred to bring the inventories to their current location and condition. The cost of inventories is determined using the weighted average cost method. The net realizable value is determined as the estimated selling price less the estimated costs to complete the product and the estimated costs for marketing, selling, and distribution. The provision for inventory write-down is made according to current accounting regulations. Accordingly, the Company is allowed to set up a provision for obsolete, damaged, or substandard inventories and in cases where the cost of inventories exceeds the net realizable value at the end of the accounting period.

5 - Tangible fixed assets and depreciation

Tangible fixed assets are presented at cost less accumulated depreciation. The cost of tangible fixed assets formed through purchases includes the purchase price and all other costs directly related to bringing the asset to a state ready for use. Tangible fixed assets are depreciated using the straight-line method based on the estimated useful life, as follows:

	Years
Buildings and structures	05 - 25
Machinery and equipment	03 - 10
Vehicles	03 - 10
Office equipment	03 - 04
Other fixed assets	03 - 04

6 - Leasing assets

A lease is considered a finance lease when most of the benefits and risks of ownership of the asset are transferred to the lessee. All other leases are considered operating leases, and lease payments are recognized as a minimum payment if this value is lower. The corresponding liability to the lessor is recorded on the balance sheet as a financial lease liability. Lease payments are divided into financial expenses and principal repayments in order to ensure a fixed periodic interest rate on the remaining debt balance. Financial lease expenses are recognized in the operating results unless these expenses directly result in the creation of the leased asset, in which case they will be capitalized according to the Company's accounting policy on borrowing costs (as detailed below). A lease is considered an operating lease when the lessor retains most of the benefits and bears the risks of ownership of the asset. Operating lease expenses are recognized in the income statement using the straight-line method over the lease term. Any payments received or receivables related to facilitating the signing of an operating lease contract are also recognized using the straight-line method over the lease term. Leased assets under finance leases are depreciated over their estimated useful life, similar to how assets owned by the Company are treated, or over the lease term, if this period is shorter, as follows:

	Years
Machinery and equipment	05
Vehicles	03 - 06

7 - Intangible fixed assets and amortization

Intangible fixed assets represent the value of land use rights, trademarks, and computer software, presented at cost less accumulated depreciation. Land use rights are amortized using the straight-line method based on the land's useful life. The Company does not depreciate land use rights that are indefinite. The value of the trademark is amortized using the straight-line method over a period of 9 years. Computer software is amortized using the straight-line method over a period of 3

8 - Construction in progress

Assets under construction for production, leasing, management, or other purposes are recorded at cost. This cost includes necessary expenses to form the asset, such as construction costs, equipment, other expenses, and related interest costs, in accordance with the Company's accounting policy. These costs will be transferred to the cost of fixed assets at an estimated price (if final approval has not been received) when the assets are handed over and ready for use.

9 - Long-term financial investments

Long-term financial investments include investments in subsidiaries and other long-term investments, which are accounted for at cost, including expenses directly related to the investments. At subsequent accounting periods, these investments are determined at cost less any impairment losses. Provision for impairment of long-term financial investments in other businesses is made when the actual capital contribution of the parties into subsidiaries and other businesses exceeds the

10 - Long-term prepayments

Long-term prepaid expenses include costs such as the cost of gas cylinder shells awaiting allocation, advance payments for land lease, office lease, and other long-

11 - Allocation of gas cylinder deposit and bet received

Deposits and bets on gas cylinder shells received from customers are allocated to income corresponding to the allocation period of the gas cylinder shell value. The remaining unallocated deposit amount is reflected in the Other long-term liabilities item on the balance sheet.

12 - Revenue recognition

Revenue from sales is recognized when all five (5) of the following conditions are simultaneously satisfied:

- (a) The company has transferred most of the risks and rewards of ownership of the product or goods to the buyer.
- (b) The company no longer retains control over the goods as the owner or the ability to control the goods.
- (c) The company can be reasonably certain that the transaction has occurred.
- (d) The company will receive economic benefits from the sale transaction.
- (e) The costs related to the sale transaction can be reliably determined.

13 - Borrowing costs

Borrowing costs directly related to the acquisition, construction, or production of assets that take a relatively long time to complete and become ready for use or operation are capitalized into the asset's cost until the asset is ready for use or operation. Any income earned from temporarily investing the borrowed funds is deducted from the cost of the related asset. Other borrowing costs are recognized in the income statement when incurred.

14 - Provisions for payables

Provisions for liabilities are recognized when the Company has a present obligation resulting from a past event, and it is probable that the Company will need to settle this obligation.

15 - Corporate income tax

Corporate income tax represents the total value of both current tax payable and deferred tax. The company is obligated to pay corporate income tax at a rate of 20% based on taxable income.

16- Other accounting principles and methods

14 - Business segments and geographical segments

The Company's main business activities are trading LPG and CNG. In addition, other business activities primarily include the production and trading of gas cylinders, provision of gas cylinder maintenance and repair services, and warehouse rental. Revenue from these other business activities accounts for a very small proportion of total revenue (0.72% in Q1 2025 and 0.92% in Q1 2024). Revenue and cost of sales from these business activities are presented in Notes 15 and 16 of the Notes to the Separate Financial Statements. Geographically, the Company operates solely within the territory of Vietnam. Accordingly, the Executive Board has assessed and believes that the omission of segment reporting by business activity and geographical area in the separate financial statements for the period from January 1, 2025, to March 31, 2025, is consistent with the requirements of Vietnamese Accounting Standard No. 28, "Segment Reporting," and in line with the Company's current business situation.
